ABOUT ME

Motivated second-year ICT undergraduate at the University of Vavuniya, combining full-stack development skills with a strong eye for UI/UX and graphic design. Proficient in building functional web and desktop applications using modern technologies while creating clean, intuitive, and engaging user interfaces. Passionate about bridging backend logic with creative front-end experiences to deliver practical digital solutions.

EDUCATION

Bachelor of ICT (BICT)

University of Vavuniya

2024 – Present

- Focus areas: Software Engineering, Full-Stack Web Development, Database Management, UI/UX Design, and Systems Architecture.

EXPERIENCE

Freelance Graphic Designer

Self-Employed

1 Year

- Designed creative social media posts, promotional materials, banners, and digital graphics according to client requirements.
- Maintained consistency in brand visual identity, typography, color palettes, and overall visual hierarchy.
- Developed visual concepts for digital marketing and promotional campaigns, delivering projects on schedule.

Digital Content & Marketing Support

Freelance Projects

- Created engaging visual content and promotional assets to boost online brand presentation.
- Supported digital promotional campaigns through creative content development and targeted design strategies.

KEY PROJECTS

Full Stack Web Applications

- Developed web applications combining responsive front-end interfaces with backend logic and relational database integration.

UI/UX Design & Wireframing

- Designed high-fidelity user interface concepts, interactive wireframes, and prototypes using Figma.
